The conclusion is in the following words:

In the beginning, God created the substance of the heavens and earth, and this substance was without form and void, or diffuse throughout space, it was dark, and the Spirit of God caused a motion to com= mence in it. God endued a part of it with luminous properties, and a part he left dark matter, and named the light matter day, or or the warmth-producing matter; and the dark he called night, or the moving around matter. This constituted the first day. On pleasurableness of the sensations of taking heavens and the earth, or of the universe, sweetest music, and every sensation was one themselves, he gave the name of heaven. This was work of the second day. On the third day he caused the masses of matter mutilated arm and said, 'Many people would to become consolidated, and gave to the one regard this as a great misfortune, I regard it which we inhabit, the specific name of earth, as one of the greatest blessing of my life. and to its collections of waters, seas. Thomas E. Bramlette.

The War candidate for Governor of Kentucky, addressed a very small audience in this city on Saturday night last. We did not hear a word of his speech, but have heard a number of intelligent citizens who did hear it, characterise it as an effort which stamped the author as a man of intolerance, malignity, bigotry and barbarian ferocity .-As reported to us, he said when he should become Gevernor, as he certainly would be, he would organize the forces of the State for efficient service and teach them but one drill-the drill of bullets through the bodies of rebels; and, in effect, that he would hoist the black flag and give no quarter, for instead of sending prisoners of war to Camp Chase for exchange, he would send them to Camp Hell by means of hangmen's ropesand much more the like.

Of Charles A. Wickliffe, he said it was question whether his annunciation as a candidate for Governor signified opposition to him (Bramlette) or opposition to the Union party; adding that Wickliffe was now a candidate only because he had not been made the nominee of the Union State Convention which put Josh. Bell in nomination; a very modest remark respecting his eminent competitor, coming from one who is not himself the nominee of the Union State Convention, but the nominee of a Committee.

He charged Wickliffe with refusing men and money for the further prosecution of the war, since it has been perverted from the purpose of restoring the Union to an Abolition war; but he (Bramlette) albeit opposed to Lincoln's Abolition policy, would nevertheless give Lincoln the last man and the last dollar in the country to carry on the war to suppress rebellion. He said the advocates of a Constitutional Union and those who should vote against him, were nothing less than traitors at heart.

He said much else which we forbear to notice, these small samples being sufficient to give the reader an idea of the spirit, taste and dignity with which this aspirant is conducting a canvass for the office of Chief Magistrate of a great State.

The newspapers of the northern commercial cities, continue to teem with accounts of the destruction of vessels at sea by rebel vessels of war and privateers. The list of merchantmen destroyed is a formidable one, and to this is added the blowing up of the armed Federal revenue cutter, the Federal pavy chiefly employed in mainsufficient expeditions to chase down the rebel prisoners having been taken. perpetrators of these depredations on the commerce of the United States. Some time of damage then inflicted by the rebels at \$200,000,000, but this is probably an exaggeration.

Gen. Hooker issued a short farewell to the army of the Potomac on handing over the command to Gen. Meade, in which he gave as his reason for resigning that he was impressed with the belief that his usefulness in the position was impaired .-Meade's address to the army, on assuming command, is commendable for its modesty and good taste, qualities which do not always emanate from military pens.

The call for nuts of very oily flavor:troops to repel the invasion of Pennsylvania, has not been responded to as promptly, cordially and fully as the emergency required, and strange to say, whether from apathy or terror, is relatively less availing in Pennsylvania than in other quarters, over which northern papers are loud in their expressions of surprise and dissatisfaction .-New York and New Jersey have sent liberal re-enforcements for the relief of Harrisburg. Our impression is-though we know too little of military strategy to make our opinion worth much-that the invasion of Pennsylvania is a mere raid, intended to make a diversion, distract the Federals, and prevent their concentration, so as to give Lee a better opportunity to take a position in Maryland threatening Baltimore and Washington; and in corroberation of this view, the bridges on the Baltimore and Harrisburg railroad, above and below York have been destroyed, and a force has been sent to distroy the Baltimore and Washington railroad and also break up the connecting road which branches off from the former to Annapolis. This accomplished, the struggle then will be for the destruction of the railthe possession of the city of Baltimore. It seems to us highly probable, therefore, that a terrible battle must soon be fought between Lee and Meade the successor of Hooker at the head of the Army of the Poomac, near the line of Pennsylvania and with any of the loval States except down the Potomac, which, in such event, would probably be occupied on both banks by rebel batteries. A Glorious Letter from Hon, C. L. Vallandigham.

We find the following letter from the Hon. C. L. Vallandigham, written just before his arrest by the instruments of this Administration, in the Lancaster (Pa.) Intelligencer. It is well worth republishing, of sound philosophy and practical sense .-"Enthusiasm is power," and it is the great lever by which we can overthrow the Administration. No man who does not throw worth a rush. The people will let him die in obscurity. They are looking for a leader now, and they will have one of pluck, or none at all. We commend this letter to our readers, as well worthy of perusal and reflection:

Meanwhile, let me say that everything depends on keeping the Democratic party up to the full messure of principle and sound policy, true to the Constitution, faithful to feel a ponderous weight of sorrow for poor ty at the hazard of life itself. Truth and reason, applied to these high and sacred objects, are the only powers or agencies left to the Democracy, and by a bold and manly use alone of them can we succed in the elections. Everything else is in the hands of the Abolition party-the Administration .-Through the press, but especially by public meetings and open and courageous organization this use is to be made. Good men individually upon our ticket will not be enough.

This is essential now. Last summer and fall the Administration was unsettled, ostensibly at least, in its policy, and its party, therefore, more or less divided. Not so now. It has a policy, and means steadfastly to adhere to it. Whoever supports the Administration now, supports its policy. All apology for temporizing by the Democratic party is utterly gone. Numerous distinguished members of the British Parliament were active and perservering in their opposition to the war. So, again, the war waged by Great Britain against the French Republic was freely denounced as unjust and unnecessary by statesmen high in the confidence of the nation. The recent war against China, frequently called the Opium war, was sternly enounced by a large portion of the British public as most iniquitous. At a public meeting in London, at which the Earl of Stanhope presided, it was resolved, 'That this meeting deeply lament that the moral and religious feelings of the country should be outraged, the character of Christianity disgraced in the eyes of the world, and this most favorable rates for cash or such country kingdom involved in war with upward of three hundred and fifty millions of people, in consequence of British subjects introducing opium into China, in direct known vioation of the laws of that Empire." Why Arrests are Made—The Danger of

In President Lincoln's letter to the Albany Democratic meeting, concerning the Vallandigham arrest, he said:

'In the latter case, arrests are made, not is more for the preventive and less for the vindictive than the former. In such cases the purposes of men are much more easily understood than in cases of ordinary crime, The man who stands by and says nothing when the peril of his Government is discussed, can not be maiunderstood. If not hindered, he is sure to help the enemy; much more, if he talks ambiguously; talks for his country with 'buts' and 'ifs' and 'ands."

That is a very singular passage-noticeable both for the profundity of its political sentiments and the elegance of the language in which they are conveyed. Punishing a life-seventy-seven years. man for saying nothing is, indeed, a new principle of justice, but not stranger than the Presidential idea of 'hindering him,' if he talks for his country, but puts in inter-positions in the shape of 'buts and ifs and ARRESTS.—On last Thursday, Jos. Gilpin, ands.' Hereafter, we suppose, it will be considered treasonable to use those conjunctions in speech and writing. They are proproof of disloyalty. To talk with the utmost freedom of public officers is still more hazardous, and may expose the talker to the severest penalties. What can a man are not safe under this Republican dispensaation one will be sharp indeed not to render of her age. himself liable to an arbitrary arrest and to severe purishment.
